A message from Yannick Bolloré

LET'S
BE THE
CHANGE

Corporate social responsibility is an integral part of everything we do at Havas. We didn't wait for CSR to go mainstream before assuming our responsibilities: we were taking on concrete commitments as early as 2009.

Havas was a pioneer in this space, and I have always believed that as a company we have a major role to play in making the world we live in a better place, through the power of our creative ideas and the influence of our communications campaigns for our clients.

I'm thrilled to see that more and more people are calling for a profound change in society. In these unprecedented times, we have noticed a sharp increase in awareness among consumers, who are showing a growing preference for products and services offered by companies trying to do the right thing.

I hope you enjoy reading our CSR Report - it is important to regularly measure our progress and fix new, challenging objectives for the good of society as a whole. I would like to thank each and every member of the Havas family across the globe for their individual efforts, no matter how big or small. We have achieved a lot, but we can still do more.

Your constantly renewed commitment to make a positive impact on the world will make Havas the most meaningful group in our industry.

Yannick Bolloré

HAVAS IMPACT+ AT A GLANCE

Since 2009, Havas Group has committed to operating as a responsible business and defined six CSR commitments together with ambitious objectives to guide all our practices and businesses.

In 2020, we launched Havas Impact+, a unique CSR brand structuring our six commitments around three key pillars: environment, meaningful communication and people.

The mission of Havas Impact+ is to encourage our agencies to harness the power of creative ideas through communication to bring about positive change in society.

03

Havas & the Sustainable Development Goals

SUSTAINABLE DEVELOPMENT GOALS

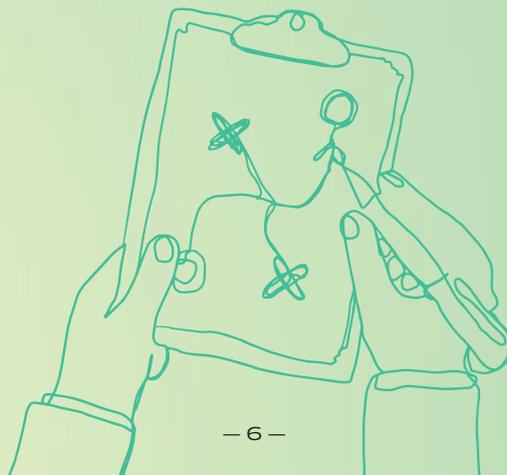

THE SDGS INSPIRE US TO IMPROVE LIFE FOR FUTURE GENERATIONS AND MAKE A MEANINGFUL DIFFERENCE TO BRANDS, BUSINESSES AND PEOPLE.

The Sustainable Development Goals (SDGs) are a universal call to action from the United Nations. To end poverty, protect the planet and ensure that all people enjoy peace and prosperity. They offer a framework to inspire meaningful growth for our collaborators and clients. This framework is represented throughout this report.

The SDGs build on the successes of the Millennium Development Goals, which started a global effort in 2000 to tackle poverty. The SDG agenda for 2030 includes new areas like climate change, economic inequality, innovation, sustainable consumption, peace and justice.

Our Meaningful Brands® research shows that commercial success and doing the right thing go hand in hand. People expect brands to take responsibility. The SDGs involve us all in building a safer, more sustainable and prosperous planet. They inspire us to improve life for future generations and make a meaningful difference to brands, businesses and people.

04

HAVAS IMPACT+ ENVIRONMENT

Our ambition is to become the leading communications group on environmental issues and achieve carbon neutrality in 2025. In the following pages you will see our commitments, goals and progress in comparison to last year for this key pillar of our CSR approach.

TO GO FURTHER...

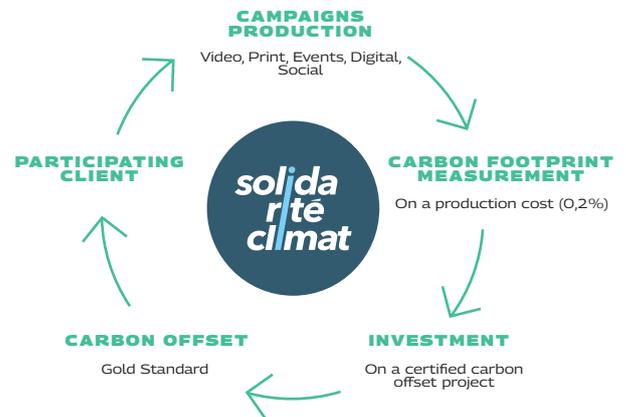

TAKING
COLLECTIVE
ACTION TO
**SAVE THE
PLANET**

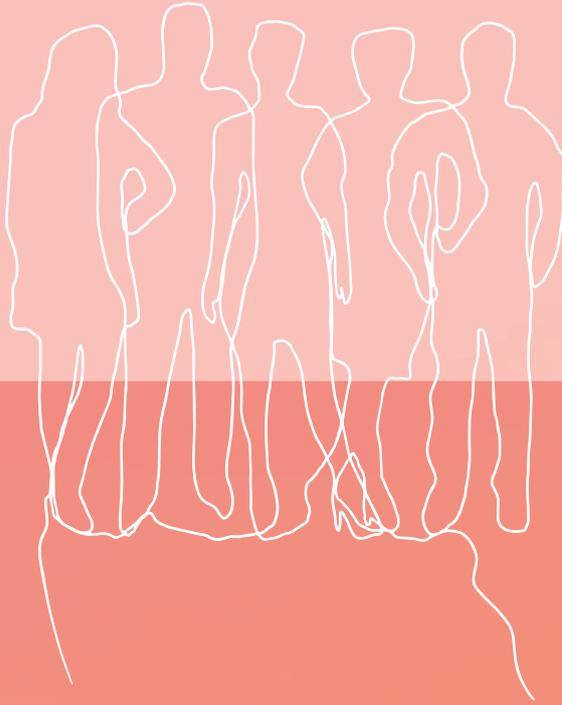

Havas is on a mission to become the world's leading communications group when it comes to enacting change and positively impacting the environment. That is why we made our ambitious commitment to achieve carbon neutrality by 2025. As a Group, we firmly believe that Havas is home to the most creative and innovative thinkers in our industry, and our ideas have the power to make a meaningful difference to future generations of this planet's inhabitants. We each have a responsibility to address our individual carbon footprint, and collectively, to recognise and reduce the impact of our operations and services at Havas. Hand-in-hand with our new commitments to reduce our environmental footprint and achieve carbon neutrality, it is our goal to measure the GHG emissions from our global campaigns and ensure that as many future projects as possible are green eco-campaigns.

Keeping in mind our ambitions, Havas Group made great strides beneath this pillar of Havas Impact+ in 2020, which can be seen in the previous pages. Most notably, this progress was achieved because our organisation implemented a continual improvement process through an ISO 14001-certified Environmental Management System (EMS), a move which will continue to help us to improve our environmental performance globally. It gives us great pride that 28% of our global headcount is now operating underneath this system, with a goal to achieve 100% in the near future. For Havas, 2020 was a year of progress. We developed impactful communications, activations and trainings to support European Sustainable Development Week, and launched progressive tools such as our industry's first Carbon Impact Calculator, which will allow us to measure the environmental impact of our clients' media campaigns across the globe moving forward. Our long-term commitment to our planet remains our priority.

05

HAVAS IMPACT + PEOPLE

Our ambition is to create a culture where diverse voices and perspectives are encouraged and respected, and where all collaborators are equally supported in developing their careers. **CREATING
A SAFE,
DIVERSE AND
INCLUSIVE
ENVIRONMENT
FOR OUR
PEOPLE AND
OUR CLIENTS**

Havas Group would not exist without our Villages around the world and without the people and communities that fill them. Our Village culture, where diverse voices and perspectives are encouraged and respected, is what makes our organisation stand out from our competitors. Through Havas Impact+, it is our ambition to attract and retain the best global talent by offering opportunities for growth and leadership development programmes, and to support equal opportunity throughout our entire network. To accelerate our mission to bolster our Diversity, Equality and Inclusion (DE&I) programmes, Havas Group established and developed All In. A programme which ensures a culture full of diverse points of view, equitable opportunities and a safe space to learn, self-reflect and have courageous conversations. All In launched with 100 actions in 39 agencies and Villages. In 2020, there were over 160 diversity initiatives that covered 56% of our collaborators. This programme includes our existing Femmes Forward and HavaSay initiatives, as well as Commit to Change NA, an initiative focused on supporting, investing in and growing Black, Indigenous, People of Colour (BIPOC) representation within our business. With All In, we are making great progress in celebrating the richness of our talent and we are seeing enormous impact around the world.

Together with our commitment to operate as a transparent and ethical business, our Group Code of Ethics underwent an update to better fulfil the expectations of our stakeholders, and our Compliance and Anti-Corruption Programmes now align with that of our parent Group, Vivendi. All of our business partners (suppliers, service providers, intermediaries, agents, sub-contractors, co-contractors, etc.) are required to comply with the Anti-Corruption Code's principles or at least equivalent standards,

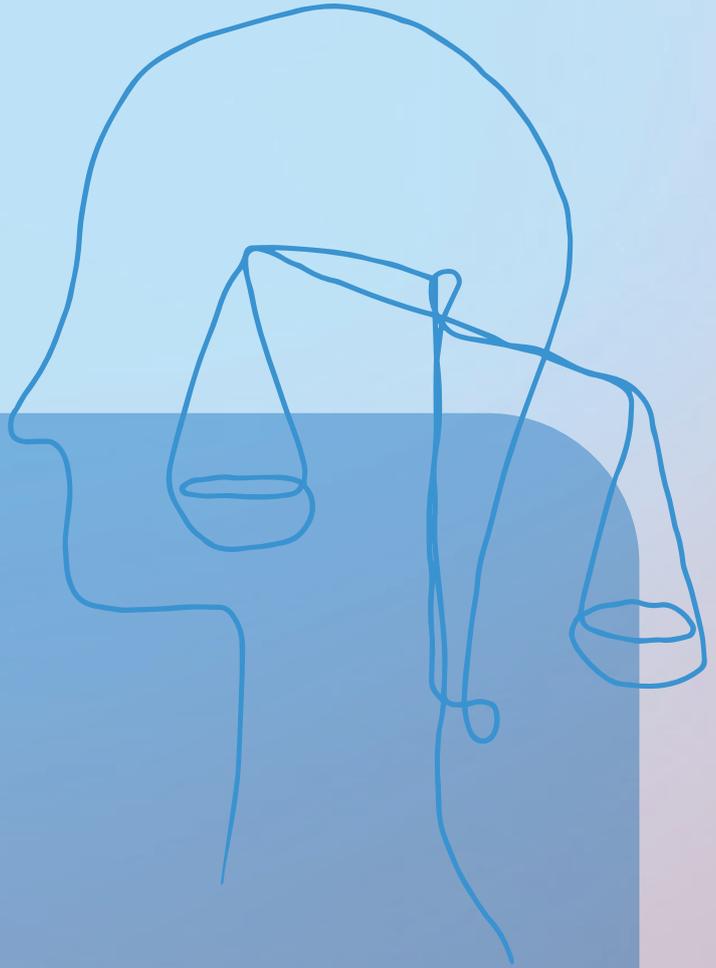

and to promote the application of the Code's principles among their own partners. As stated in previous pages, the deployment of anti-corruption trainings covered more than 79% of our headcount in 2020 and 67% of agencies held training on the protection of personal data. Likewise, our commitment to maintain a responsible supply chain is anchored by our Group policies to both highlight our engagement to a responsible supplier programme and to answer to our clients CSR evaluations needs, through extra financial evaluation platforms such as EcoVadis. Havas Group's responsibility to our people, suppliers and clients continues to accelerate and it is a source of new ideas and programmes for our future.

MAKING A
POSITIVE
DIFFERENCE
TO THE WAY
PEOPLE
LIVE THEIR
LIVES

HAVAS
MEDIA GROUP

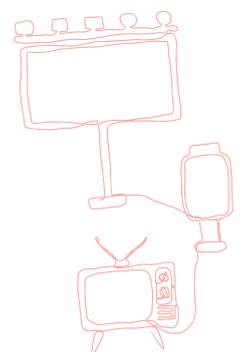

At Havas, ideas and the incredible people that spark them are our most valuable asset. In 2020, creativity was our kryptonite and spurred us to communicate change and make a meaningful difference on behalf of our global clients. We are in the business of ideas and believe our creativity has the power to bring about positive change in society. As a Group, our purpose is to lead through the creation and diffusion of responsible and meaningful communications, which guide our global talent, and our collaborative relationships with partners and clients. More than ever, our developed communication tools and strategies are geared towards sustainable development and pro bono work.

In 2020, our most influential leaders spearheaded the creation and implementation of meaningful communication initiatives in order to maximise their impact, and Havas Media Group became the first global advertising holding company to join the Conscious Advertising Network (CAN). In the US and UK, we celebrated the launch of our Social Equity Private Marketplace, a first-of-its-kind platform which guides owned media organisations to positively invest funds in underrepresented businesses. Through the power of communication in 2020, we drew together our global network and took a stand for the causes that matter to us. Our commitment, which is at the core of what we do, uniquely positions Havas Group to truly answer society's demands and bolster our clients wishes to create a positive impact.

Thank you!

Many thanks to the teams across our network who have greatly contributed to a solid and comprehensive CSR report, helping us collect reliable data and measure our progress through 2020. This data is invaluable to understanding what's going well and what can be improved, as well as gauge Havas' overall positive impact.

We thank our project team who oversaw the ISO 14001 certification process and our agencies in France, Spain and the UK who worked hard to achieve the highest standards of environmental performance.

We also take great pride in our agencies in London and Amsterdam having achieved B Corp certification, and are very excited for more B Corp journeys ahead - entities in Australia, France, Indonesia, India, Malaysia, Singapore, the UK and US have all started this process to become a force for good.

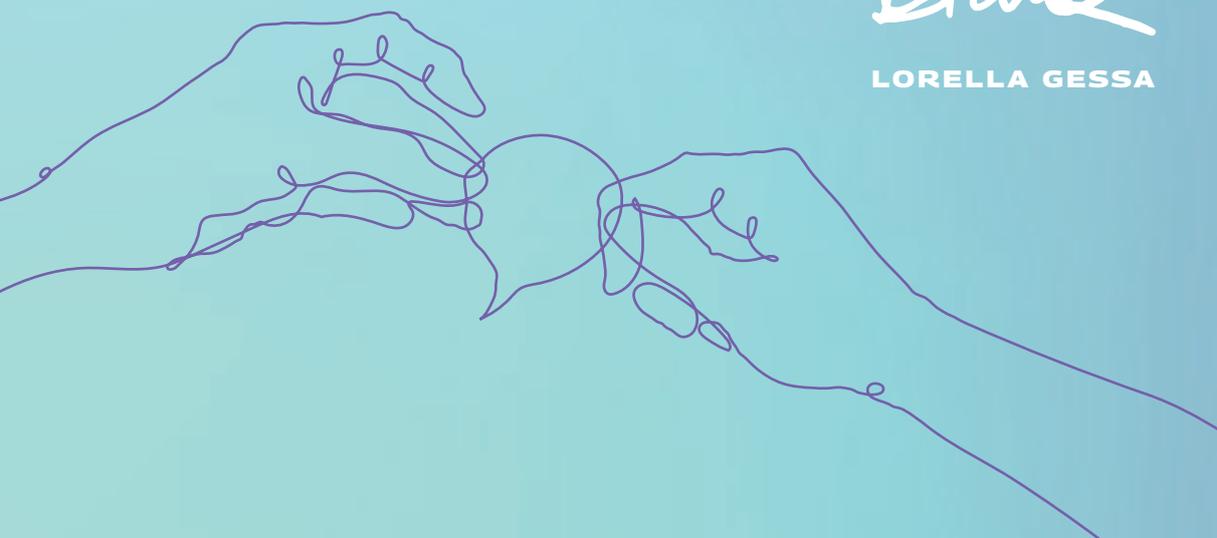

Let's gratefully recognise all the inspiring pro bono campaigns that showcase the generosity and creativity of our agencies around the world.

Last but not least, thanks so much to all of our Havas collaborators who have welcomed Havas Impact+ with lots of enthusiasm, making it come to life in their local markets. We encourage more Villages and agencies to implement our brand at their level and make it their own.

Thank you!
